

# Does Alzheimer's disease run in your family?

Older individuals with a first-degree relative with Alzheimer's disease have an increased likelihood of developing changes in the brain associated with the disease. If you are between the ages of 65 and 85 and are interested in learning more about a clinical trial aimed at preventing the memory loss due to Alzheimer's disease, please visit [A4Study.org](http://A4Study.org) or call 844-A4STUDY (844-247-8839).
