Make **Smart Food Choices** for Healthy Aging

It’s never too late to make smarter food choices. Healthy eating is an important part of staying healthy as you age. Following these tips can help you maintain a healthy weight, get the nutrients you need, and lower your risk of chronic disease.

Try to eat and drink from these food groups each day: fruits, vegetables, grains, protein, and dairy.

<table>
<thead>
<tr>
<th>Instead of:</th>
<th>Try these:</th>
</tr>
</thead>
<tbody>
<tr>
<td>High-calorie snacks</td>
<td>Nutrient-dense snacks</td>
</tr>
<tr>
<td>Fruit products with added sugars</td>
<td>Fresh fruit</td>
</tr>
<tr>
<td>Regular cola</td>
<td>Water flavored with fruits or vegetables</td>
</tr>
</tbody>
</table>

Variety is an important part of eating healthfully!

Cut back on foods and beverages that are high in calories and added sugars, sodium, and saturated fats. Shift to healthier options like fresh fruits and vegetables instead.
Use a food diary to help you keep track of your total daily calories, carbs, protein, etc., and see if you are making healthy choices. Understand how many calories you need based on your level of daily activity.

Choose a variety of foods that are packed with nutrients and low in calories. Check the food labels to understand what foods will meet your nutritional needs each day.

**How Many Calories Do You Need Each Day?**

**Women**
- Not physically active: 1,600 cal.
- Moderately active: 1,800 cal.
- Active lifestyle: 2,000-2,200 cal.

**Men**
- Not physically active: 2,000-2,200 cal.
- Moderately active: 2,200-2,400 cal.
- Active lifestyle: 2,400-2,800 cal.
